## RICH TRADITION. CUTTING-EDGE PROGRESS.

### THE SOUTH BEND MEDICAL MILE ENHANCES REGIONAL HEALTH CARE

Radiating outward from the heart of downtown South Bend, the one-mile circle known as the Medical Mile represents the area's largest regional health-care concentration. This alliance of the five largest South Bend-based medical providers offers the latest in technologies, treatments, research and education, advancing South Bend as a progressive regional health-care leader.

### MEMORIAL HOSPITAL & HEALTH SYSTEM

The second-largest employer in the metro area, Memorial Hospital traces its roots back to 1894 when it was founded as Epworth Hospital and Training School. Now part of Memorial Health System Inc., the hospital is a 650-bed regional referral center providing a Level II trauma center and the most comprehensive care in the area for cardiac, cancer, childbirth, pediatrics, emergency medicine and rehabilitation services. Memorial's largest expansion in its 113-year history, completed in 2009, boosted the hospital's surgical capacity to 13 major operating rooms, six remodeled outpatient rooms and remodeled preoperative and recovery areas. The surgicenter accommodates all types of surgeries, including cardiovascular cases, orthopedics, neurosurgery, trauma and state-of-the-art da Vinci robotic surgery. In spring 2011, Memorial's new Regional Cancer Center opened a 46,000-square-foot space that centralizes cancer services, enhances patient convenience and improves physician collaboration.

### THE SOUTH BEND CLINIC

The South Bend Clinic is the largest and most diverse physician group in northern Indiana and southwestern Michigan with physicians with board certifications in more than 25 different areas of medical practice. These physicians have come from prestigious training grounds and most of the top medical schools in the country, including Indiana University, to practice in South Bend. Supporting the physicians are more than 600 highly skilled staff and technicians, plus the latest in high technology in areas such as imaging, clinical laboratories, cardiac diagnostics, cancer therapeutics, musculoskeletal diagnosis and therapy. Nine facilities provide a convenient single point of care for patients. Through the technology of electronic health records, complete patient medical records are shared seamlessly with all clinic providers to speed diagnosis and treatment, enhance collaboration among clinical experts, and minimize waste and inefficiency in health care. The South Bend Clinic has served the community since its founding in 1916.

# HEALING PROPERTIES.

## SOUTH BEND MEDICAL FOUNDATION

Established in 1912, the South Bend Medical Foundation is proud to provide high-quality, cost-effective laboratory and blood banking services to the hospitals, physicians and patients it has served for the last 100 years. The South Bend Medical Foundation's 800 employees provide a full spectrum of health-care services for communities in Indiana, Ohio, Illinois and Michigan. By working together with local health-care providers, the South Bend Medical Foundation preserves the critical relationship between laboratory, physician and patient.

## MEMORIAL EPWORTH CENTER

Memorial EPWORTH CENTER is the inpatient psychiatric-care division of Memorial Hospital of South Bend. Memorial Epworth Center combines the leadership support from Memorial Hospital with specially trained behavioral health specialists to build the leading community resource for inpatient mental health care in the area. Epworth Center provides multidisciplinary psychiatric treatment for adults, as well as for children and adolescents. With 24-hour care and assessment, it offers diagnosis and treatment of psychiatric conditions such as depression, anxiety disorders, bipolar disorders, substance abuse and dementia. Offering both individual and family therapy, the accredited clinical program is under the direction of board-certified psychiatrists (M.D.s). Additional support is provided by nurse practitioners, psychiatric nurses, mental health technicians, social workers and certified recreational and occupational therapists.

### INDIANA UNIVERSITY SCHOOL OF MEDICINE-SOUTH BEND

Faculty and staff: **42**

Physician educators: **200+**

Medical students in community: **105**

## INDIANA UNIVERSITY SCHOOL OF MEDICINE-SOUTH BEND

Indiana University School of Medicine-South Bend has offered first- and second-year medical education for more than 40 years, and has delivered instruction in the Raclin-Carmichael Hall across from the University of Notre Dame since 2005. In 2008, the program expanded to offer third- and fourth-year clinical education, and now educates more than 100 students a year in classroom and clinical settings. Nearly 200 local physicians, many of whom attended IUSM-SB, instruct courses in IUSM-SB classrooms and welcome medical students

into the region's hospitals, clinics and offices for clinical teaching and mentoring. The IUSM-SB medical education complex also is home to the Harper Cancer Research Institute, the focal point of cancer research among IUSM-SB and Notre Dame faculty, and members of the local health-care community.
